

Mission Beach Transfer Station is located at 1453 Highway 616. It's open Wednesday and Saturday from 9 a.m. to 5 p.m.

Sunnybrook Transfer Station is located at 49164 Range Road 22. It's open Wednesday, Thursday, and Saturday from 9 a.m. to 5 p.m.

Leduc County transfer stations accept household waste, compost, yard waste and recycling. Transfer stations are not intended for institutional, commercial, industrial, or agricultural use.

Blue bags are accepted at all Leduc County transfer stations; the blue bag program accepts the following materials:

- metal (such as aluminum cans, empty, non-hazardous aerosol cans, etc.)
- glass (such as jars and bottles)
- plastic (such as household bottles and containers and plastic bags)
- paper/cardboard (such as newsprint, inserts, flyers, envelopes, paper egg cartons, paper bags, magazines and books, phone books, greeting cards, etc.)

In addition to household waste, compost, yard waste and recycling, the **Sunnybrook transfer station also accepts the following:**

- household materials (such as oil and filters, antifreeze, paint, and oil containers)
- electronics (such as computers and servers, laptops, notebook and tablet computers, visual display devices – TVs, monitors, and all in one computers, printers, copiers, scanners, and fax machines)
- batteries (such as car batteries, rechargeable and non-rechargeable batteries, cell phones and cell phone batteries)
 - batteries must be sorted into the following categories:
 1. alkaline batteries (most common household batteries, will have the word alkaline on the label)
 2. hearing aid batteries
 3. lead-acid batteries (such as car batteries, UPS batteries)
 4. nickel-based batteries (Ni-Cd, NiMH, Ni-Zn; commonly will be rechargeable batteries)
 5. lithium, lithium-ion batteries

- white metals (such as appliances, intact refrigerators, freezers, and enamel-coated products)
- other metals (such as scrap metals, rebar)
- construction and demolition waste (such as drywall, painted/stained lumber, pressure-treated wood, etc.)
- tires
- clean non-toxic wood material
- miscellaneous materials (such as furniture)

Electronics recycling

The following electronic items are accepted at the **Sunnybrook transfer station**:

- computers and servers
- laptop, notebook, and tablet computers
- visual display devices, such as TVs, monitors, and all-in-one computers
- printers, copiers, scanners, fax machines
- small home appliances
- audio and video equipment
- cell phones and other wireless devices
- gaming equipment
- toys
- musical instruments
- power tools
- solar panels

The following items are prohibited at all transfer stations:

- dead animals
- asphalt shingles
- railway ties

Load size

Your load cannot be more than a typical eight-foot truck box filled to a depth of no greater than three feet. You can deposit a total volume of 3.5 cubic yards of waste per visit to a transfer station. If you exceed three tonnes of waste, you will have to take the load to the Leduc and District Regional Waste Management Facility.
