Attention: Sundance Beach Lakeshore User

Re: **Lakeshore Cleanup Project**

We are pleased to advise that the Summer Village of Sundance Beach is a recipient of the SERVE 2026 program.

SERVE is a youth mission and youth conference rolled into a week-long event. Around 200 teenagers from Canadian Baptist Churches across Western Canada come together each year with the sole purpose of serving God by serving the local community.

We will have 14 students and 4 leaders come to the Summer Village on Monday, July 6th, from 9am – 4pm. They will complete a shoreline cleanup along the whole shoreline of the Summer Village of Sundance Beach (time permitting). The cleanup will include prohibited noxious weeds, dead plant material and possibly some garbage. This project will help protect the lake and shoreline.

IMPORTANT NOTE: If you would prefer them **not to** clean the shoreline in front of the area you use, please contact the Summer Village office. Otherwise, we will assume you would like this work completed on your behalf and will proceed with the project.

Sincerely,

June Boyda, CLGM

Chief Administrative Officer
